

**IMPLEMENTATION SCHEDULE  
FY 2006 WATER QUALITY ANALYSIS FEE**

**Community Public Water Supplies**

! \$1.90 per service connection or \$40,000, whichever is less

**Community Public Water Supplies that Purchase Water**

! \$1.90 per service connection or \$2,000, whichever is less

**Non-Transient Non-Community Public Water Supplies**

! \$1.90 per service connection or \$1,000, whichever is less

**Definitions**

**Community Public Water Supply** - A water supply serving a residential population with at least 15 service connections and/or 25 people more than 60 days per year.

**Non-Transient Non-Community Public Water Supply** - A water supply serving a non-residential population of at least 25 of the same people more than 60 days per year. (Examples: industries, schools, etc.)

**Service Connection** - Homes, apartment units, businesses, etc. that are provided water service by a public water supply. The number of service connections for non-transient non-community public water supplies will be determined by dividing the population served by 2.6 or the latest available census data for the average number of people per household in Mississippi.

**NOTE:** This water quality analysis fee is authorized by Section 41-26-23 Mississippi Code of 1972, Annotated. The effective period of this fee is 1 July 2005 to 30 June 2006.
