

**Chapter 39 Physical Reevaluations of Disability Retirees of the Municipal Retirement System or Policemen's and Firemen's Disability and Relief Systems.**

**100 Purpose**

The purpose of this regulation was to clarify when a physical re-examination was required for disability retirees retired under the general municipal retirement systems or policemen's and firemen's disability and relief funds.

**101** ~~The Public Employees' Retirement System of Mississippi may require a physical re-examination of any disability retiree at any time when desired by the System. Such physicals shall be conducted by a physician selected or approved by the System or other governmental agency designated by the Board of Trustees that is qualified to make disability determinations. Reimbursement for physical examinations shall be in accordance with Public Employees' Retirement System regulations.~~

~~In addition, or in lieu thereof, the System may request that any retiree submit his federal income tax returns for confidential evaluation to determine earning potentials.~~

~~No physical re-examination or tax submission shall be required when the retiree shall have more than 20 years of combined service and disability credit.~~

This regulation was repealed by the Board of Trustees as the contents of the regulation were incorporated into the comprehensive provisions for disability benefits of the municipal systems reflected in Regulation 45B.
