

**OFFICE OF QUALITY EDUCATORS**  
**Summary of State Board of Education Items**  
**May 17-18, 2007**

**EDUCATOR LICENSURE**

01. Approval of Three New Technology Endorsement Codes as recommended by the Commission on Teacher and Administrator Education, Certification and Licensure Development (cleared APA with no public comment)

On March 23, 2007 the Commission on Teacher and Administrator Education, Certification and Licensure and Development approved the following new endorsement codes as the next step in the new Vocational Redesign initiative:

- 981 – ICT 1 – Information and Communication Technology I
- 982 – ICT 2 – Information and Communication Technology II
- 983 – STEM – Science, Technology, Engineering and Math Applications

**Rationale:**

In January of 2007, the Certification Commission approved and sent to the State Board the recommendation to upgrade the training for Tech Prep Discovery courses for 7<sup>th</sup>, 8<sup>th</sup> and 9<sup>th</sup> graders – Computer Discovery, Career Discovery and Technology Discovery. This was the first phase of the new high school redesign initiative. In the next phase, these three courses will be systematically replaced by ICT 1, ICT II and STEM in a phase-in over the next five years. The ICT I, ICT II and STEM courses will begin in the Fall of 2007 in fifteen pilot sites around the state. Technology teachers from the selected pilot sites will be trained this summer to be ready to teach these new courses this fall. Upon completion of this training, these teachers will apply to add the recommended new endorsements to their standard license.
