~~101~~102(Reserved)

200 Definitions

~~200201A~~ "Hotel" or "motel" as used in this rule includes is defined as any establishment which is engaged in the business of furnishing one or more rooms, cottages or cabins designed for dwelling, lodging or sleeping purposes to transient persons. The terms "hotel" or "motel" also include all buildings or other structures kept, used, maintained or advertised as, or held out to the public to be, a place where sleeping accommodations are supplied for pay or other consideration regardless of the number of rooms, units, suites or cabins available. ~~If it~~ is immaterial that cooking facilities may or may not be furnished.

~~201~~ "Hotel" or "motel" also includes any establishment furnishing bed and breakfast accommodations to transient persons.

~~202~~ Condominium or Hotel Condominium is defined as a multi-unit facility where each unit is individually owned. Condo owners may rent out the units when not in use by the owner. The units may be rented out by the owner or placed with a management company for rental. Rentals of condominiums or hotel condominiums are taxable when such rentals are to transient persons.

~~202~~ For the purposes of this rule, a person who is renting from a condominium for a period of at least three consecutive, complete months or for a minimum of ninety consecutive days is not considered to be a transient person and no sales tax is due. Additionally, any hotel or motel may exclude the gross income from charges for non-transient guests. The hotel must have a building(s) set separate and apart from the other buildings that is held exclusively for long term rental. The building must contain rooms with kitchen facilities and may not be used to provide lodging for transient persons. For the purposes of defining non-transient guest, the guest must enter into a contract at the beginning of the stay, for a period of at least three consecutive complete months or for a minimum of ninety consecutive days.

~~203~~203A ~~"Trailer park"~~ is ~~a term used to denote that type~~ defined as a ~~of~~ park established for the purpose of accommodating travel trailers pulled either by automobiles or other type vehicles or self-propelled, which are in a travel or transient status and where utilities are connected in a temporary manner. For tax purposes, a ~~"trailer park"~~ is any one location where trailers, campers or other mobile units may be parked for a fee, either permanently or temporarily and irrespective of whether utility facilities are available. The gross income of trailer parks is subject to the regular retail rate of tax.

204 A ~~"m~~Mobile home park" is defined as a park establishment~~ed~~ for the primary purpose of accommodating mobile homes which are permanently located, registered with the County Tax Assessor as provided by Miss. Code Ann. Section 27-53-5, hooked up to water, sewer, gas or electric utilities with permanent meter connections which are not easily disconnected, and tied down according to regulations and other requirements. Such facilities are considered a home and place of permanent residence. ~~It therefore appears that t~~Since the statute ~~which~~ specifically denotes 'hotels, motels, tourist courts or camps and trailer parks' this tax is applicable ~~refers~~ specifically to travel or transient accommodations and not to residents of mobile homes. Sales to mobile home residents of potable water, electricity, gas or other fuel for residential use are exempt from sales tax.
