

OFFICE OF QUALITY PROFESSIONALS
Summary of State Board of Education Items
February 14-15, 2008

EDUCATOR LICENSURE

Approval to begin the Administrative Procedures Act Process: To Approve a Change to the Licensure Guidelines for all Endorsement codes for Foreign Languages from Secondary grades 7-12 to Special Subjects grades K-12 as Recommended by the Commission on Teacher and Administrator Education, Certification and Licensure Development

Specifications:

The Certification Commission is recommending approval of a change to all licensure codes for all foreign language endorsements from secondary subject grades 7-12 only to special subjects grades K-12. This will allow teachers trained for a foreign language to teach any grade, not just secondary. Many Mississippi school districts want to offer foreign languages to elementary students, but we don't currently have a way to certify these teachers.

Background Information:

Proposal to Revise Foreign Language Endorsements From Secondary 7-12 to Special Subjects K-12

In our current licensure structure, all license endorsements are issued as either:

- ✚ Elementary grades K-6 or K-8
- ✚ Secondary grades 7-12
- ✚ Special Subjects grades K-12

At this time, all licensure endorsement codes for foreign language subjects, such as Spanish, French, Latin, German, Italian and Russian are approved as secondary subjects grades 7-12. Traditionally, these subjects have only been taught on the secondary level, however, in the last few years, several Mississippi school districts have received grants to teach Spanish and now Italian on the Elementary level. Because these endorsements have been approved as secondary licenses and can only be issued on the secondary level, we have no way to certify foreign language instructors teaching on the Elementary level through these grant programs.

In the last few years since this issue has arisen, our only option for these teachers was for the district to request emergency licenses in Elementary Education for these teachers. With the 1-year emergency or Interim licenses, these teachers must make progress toward certification. This means, although they teach only Spanish (or Italian), they must go back to school and complete a degree in Elementary Education to become a fully certified teacher.

The Office of Educator Licensure and the Office of Curriculum are asking the Commission to approve the revision of all foreign language endorsements from secondary grades 7-12 licenses, to special subject licenses for grades K-12. We feel that approval of this revision would allow these fully certified secondary teachers to teach the foreign language of their expertise to Elementary students without having to get another degree.

Prior to the September, 2007, Commission discussion on this issue, the Office of Educator Licensure requested feedback from the Mississippi schools of education on this issue. All Deans of Ed that responded were in favor of the revision. Several did add that they would make the appropriate changes in their teacher education programs to accommodate elementary pedagogy as well as secondary. Some suggested incorporating an elementary student teaching component as well as secondary.

If approved, this change to the licensure guidelines would go into effect on June 1, 2008.

Attachments:

1. Current Licensure guidelines list of approved endorsement codes – foreign language endorsements are highlighted
2. Current licensure guidelines list of ways supplemental endorsements are added to a standard license – foreign language endorsements highlighted

APPENDIX E: MISSISSIPPI ENDORSEMENT CODES
