**Reference to Rules repealed, amended or suspended by the Proposed Rule:**  
Mississippi Hazardous Waste Management Regulations (HW-1)

**Explanation of the Purpose of the Proposed Rule and the reason(s) for proposing the rule:** This proposed rule will amend the present Mississippi Hazardous Waste Management Regulations by incorporating by reference certain final federal regulations promulgated on June 16, 2005, June 29, 2007, January 2, 2008, April 8, 2008, and June 4, 2008, that will correct typographical errors in the final rule on February 24, 2005 regarding nonwastewaters generated from the production of certain dyes, pigments, and FD&C colorants, correct definitions in the universal waste rule, promote recycling of oil-bearing hazardous secondary materials generated by the petroleum refining industry, finalize amendments to the national emission standards for hazardous air pollutants (NESHAP) for hazardous waste combustors, and amend the list of hazardous wastes from non-specific sources by modifying the scope of EPA Hazardous Waste F019 to exempt wastewater treatment sludges from zinc phosphating, when zinc phosphating is used in the motor vehicle manufacturing process, provided certain conditions are met. This will continue to assure that Mississippi's Hazardous Waste Management Regulations are equivalent to the federal regulations and assure the continued delegation of the enforcement and compliance of the hazardous waste program to the Mississippi Department of Environmental Quality by the U.S. Environmental Protection Agency.
