February 19-20, 2009

EDUCATOR LICENSURE

To Approve a Revision to the Licensure Guidelines to Remove the One Standard Error of Measurement Allowance in the MS Alternate Path to Quality Teacher (MAPQT) Alternate Route Program as Recommended by the Commission on Teacher and Administrator Education, Certification and Licensure Development (cleared APA with no comments)

Specifications:

In June of this year, the United States Department of Education did a highly qualified No Child Left Behind (NCLB) audit at MDE. One of their findings stated that Mississippi was out of compliance with NCLB guidelines in allowing alternate route candidates in the MAPQT program to be admitted without a passing score on the Praxis II exam. The MAPQT has allowed candidates to be admitted with 1 SEM since the program was approved. We are recommending that the 1 SEM be removed from this policy and that all candidates for admittance into the MAPQT program be required to meet the approved cut score before being admitted.

The Commission on Teacher and Administrator Education, Certification and Licensure Development discussed this proposal many times in the past few years. On November 6, 2008, the Commission voted to recommend to the State Board removal of the 1 SEM allowance. The board voted on January 16, 2009, to give initial approval to removal of the 1 standard error of measurement and portfolio component from the MAPQT alternate route program.

Background Information:

In Mississippi, all approved alternative certification teacher preparation programs contain three basic components:

1. Testing – passing score on Praxis I (3 parts) and Praxis II subject area test
2. Training – complete teacher training program or pre-teaching coursework approved for that alternate route program
3. Teaching internship – all alternate route teacher candidates must complete one-year of teaching on a provisional license as an internship before becoming fully licensed.

In 2002, the Mississippi Department of Education contracted with the Mississippi Community College Foundation to administer the Mississippi Alternate Path to Quality Teacher (MAPQT) alternate route program. At the time the MAPQT was approved by the State Board, the program allowed for candidates to be admitted into the program without a passing score on the Praxis II subject area test as long as the candidate had scored within one standard error of measurement of the passing score. These MAPQT participants could complete the 3-week

summer training program and begin their teaching internship with the 1 SEM on the Praxis II. During the internship year, these candidates must retake the Praxis II test. If they passed the test and completed the internship, they would qualify for the 5-year standard license. If they did not meet the passing score, they could be issued another 1-year MAPQT license and continue to teach. This was allowed for 3 years. At the end of the 3-year period, if these candidates still had not passed the test, the guidelines for the MAPQT allowed for these candidates to submit to MDE a portfolio. After the portfolio was evaluated by a committee, the candidate could be issued a 5-year standard license. During the last six years that the MAPQT has operated, many candidates with 1 SEM have been admitted into the program but MDE has granted 3 licenses with a portfolio.

All other MS alternate route programs require a passing score before candidates can apply for the initial license. This proposal to remove the 1 SEMI from the MAPQT will bring this program into compliance with this requirement.

Packet must include certificate of completion from MAPQT program 3. Packet must include completed mentoring form from school district (Form #OEL 12-02) 4. Passing score on the Praxis II Specialty Area Test or validation of instructional portfolio <p>Supplemental endorsements can be added to a five year license</p>
<p>MAPQT Guidelines Concerning Candidates that have scores within one</p>	<ol style="list-style-type: none"> 1. An individual who has a passing score on the Praxis II Specialty Area Test, and has successfully completed all of the requirements may be issued a Five Year license. 2. An individual who has not achieved a passing score on the Praxis II, Specialty Area Test, after the first year of teaching can apply for another

**standard error
of measurement
of the Praxis II
Specialty Area
Tests**

one-year MAPQT license if they meet the following requirements:

- retake the Praxis II during the second year of teaching
- continue work on an Instructional Portfolio during the second year (*documentation is needed from MAPQT coordinator*).
- complete additional content specific coursework in area of weakness (*documentation is needed from MAPQT coordinator*)

3. An individual who has a passing score on the Praxis II Specialty Area Test at the end of the second year of employment will be issued a Five-Year License.

4. An individual who has **not** achieved a passing score on the Praxis II at the end of the second year can apply for another one-year MAPQT license if they meet the following requirements:

- retake the Praxis II during the third year of teaching
- continue work on an Instructional Portfolio during the third year (*documentation is needed from MAPQT coordinator*).
- complete additional content specific coursework in area of weakness (*documentation is needed from MAPQT coordinator*)
- local district should conduct an evaluation of the teacher and provide documentation to the OEL.

5. An individual who has not achieved a passing score on the Praxis II Specialty Area Test by the end of the third year of teaching, but has a score that is within one standard error measurement of the passing score, shall submit his/her Instructional portfolio to the State Board of Education. The Board will have the portfolio evaluated by an external team. If the portfolio is recommended for approval by the external team, the teacher may be issued a Five-Year license.
