The latter is to be viewed not only from the standpoint of the danger of treatment itself, but is to include an assessment of suspected potentiation of combined anesthetic and chemotherapeutic agents. Consideration must be given to alternative methods of treatment.

- B. The use of ECT will be determined by positive indication. Fully supportive documentation of all factors considered in arriving at the decision to use ECT will be entered into the patient's permanent medical record by the patient's attending physician and any consultants, medical or legal, who review the patient's need for ECT.

1.02 PURPOSE: To ensure that no person is denied services because of inability to pay for such services.

1.03 ABILITY TO PAY:

The director or the governing board of each facility, as appropriate, shall investigate or cause to be investigated the financial ability of each patient, his or her estate, and all other persons legally liable for the cost of care of the patient. The charges assessed shall be in accordance with the ability of the person to pay. The determination shall not work an undue hardship on any patient or person legally responsible for such a patient. The value of a homestead shall not be considered in determining the ability to pay. The number of dependents of a patient or the party legally responsible for such patient shall be considered in determining ability to pay. The value of real and/or personal property may also be considered. If it is determined that a person receiving services is unable to pay the total fee, the Department shall collect any amount such person is able to pay.

1.04 SCHEDULE OF RATES:

The director of each facility is instructed to prepare and, at least annually, update a schedule of private pay rates for such services that a private pay rate is applicable. In establishing such rates, the director shall insure that the rate so established is in accordance with relevant Mississippi statutes, and that such rates are set at such value to ensure no loss of third party reimbursement (Medicare, Medicaid, or any other) which is limited to the lesser of the private pay rate or the rate approved by the third party. Upon notification of any rate or per-diem changes by any third party, the director of such facility shall immediately amend private pay rates to ensure the private pay rate at least equals the third party reimbursement for which such notification was received.

1.05 RATE CHANGES:

Directors of facilities shall abide by any relevant rules and regulations governing notice of rate changes before reflecting the proposed rates on any billings to patients or patients' responsible parties.

1.06 BOARD NOTICE OF RATE CHANGES:

At the next Board of Mental Health meeting following such a rate change, the director of the facility shall present a report to the Board of Mental Health listing all private pay rates and indicating, for those rates that have changed since the last presentation, the old rate and the new rate. The Board may, at its option, disapprove the change; but unless the Board takes any action contrary, the rates in effect for the facility, including the new rates, shall be deemed to have Board Approval.

1.07 SLIDING FEE:

There shall be a Department wide sliding fee discount scale adopted. This sliding fee discount shall take into consideration family size and income as reflected in federal poverty guidelines and shall be adjusted annually when such federal poverty guidelines are adjusted. This sliding fee discount scale shall specify percentage discounts from regular rates based on family size and income. In the event that the person even with such discount cannot pay, further discounts even zero, are permitted based on the individual facts and circumstances of each case. In no event shall a person be denied service solely because of inability to pay.

1.08 INCOME:

In determining a person's or family's income, the following definition will be used:

- A. Income includes the total annual cash receipts before taxes from all sources, with the exceptions noted below.
- B. Income includes money wages and salaries before any deductions; net receipts from non-farm self employment (receipts from a person's own unincorporated business, professional enterprise, or partnership, after deductions for business expenses); net receipts from farm self employment (receipts from a farm which one operates as an owner, renter, or sharecropper, after deductions for farm operating expenses); regular payments from unemployment compensation, strike benefits from union funds, workers' compensation, public assistance (Aid to Families with Dependent Children or Temporary Assistance for Needy Families, and non-federally funded General Assistance or General Relief money payments, and training stipends), alimony, child support, and military family allotment or other regular support from an absent family member or someone not living at the household; and regular insurance or annuity payments; college or

university scholarships, grants, fellowships, and assistantships; and dividends, interest, net rental income, net royalties, periodic receipts from estates or trusts, and net gambling or lottery winnings.

- C. Income does not include the following types of money received: capital gains; any assets drawn down as withdrawals from a bank, the sale of property, a house, or a car; or tax refunds, gifts, loans, lump-sum inheritances, one time insurance payments, or compensation for injury. Also excluded are non-cash benefits, such as the employer paid or union paid portion of health insurance or other employee fringe benefits, food or housing received in lieu of wages, the value of food and fuel produced and consumed on farms, the imputed value of rent from owner occupied non-farm or farm housing, and such federal non-cash benefit programs such as Medicare, Medicaid, food stamps, school lunches, and housing assistance.
- D. Income received from the following sources are not subject to the discounted rate: regular payments received from social security, railroad retirement, veterans payments, supplemental security income, private pensions, government employee pensions (including military retirement pay). The ability to pay for persons receiving income from any of these sources will be determined on a case by case basis.
- E. Any item of income which does not fit within any of the categories listed for inclusion or exclusion in this definition will be evaluated on a case by case basis to determine whether such income should be included or excluded.

#### 1.09 POVERTY GUIDELINES:

Annual poverty guidelines published by the U.S. Department of Health and Human Services shall be used to determine a discount to be applied to the regular private pay charge. Families receiving income equal to 200% or more of the federal poverty guideline applicable to their family size shall receive no discount. Families receiving less than 200% of the federal poverty guideline shall receive the discount specified in the column of the Sliding Fee Scale for their level of income and family size. Once an amount due is determined, additional discounts may be made on a case by case basis to ensure that no person is denied services based on inability to pay for such services.

#### 1.10 DISCOUNTED RATES:

- A. In determining the discounted rate, the facility may require submission of proof of income amounts claimed (W-2, pay check stub, etc.). The facility

may require such documentation when granting discounts above the percentage discount, but is not required to do so.

- B. Even where a discounted rate is determined, billings may still indicate the full private pay rate with the discount shown separately. The purpose of this provision is to ensure that, in the event of an estate settlement, the full interest of the state in collecting from such estate shall be preserved.
  - C. The discounted rate shall apply only to private pay amounts. Amounts due from third party insurers, including Medicare and Medicaid, shall not be discounted using this policy but may be discounted below the full private pay rate in the case of participation agreements with such third parties. In cases where the third party payment is deemed payment in full, the remaining balance shall not be billed to the patient. In cases where the third party payment is not deemed payment in full, the remaining balance may be discounted.
  - D. The discounted rate calculated under this policy will not be applied to nursing home admissions. Private pay rates for nursing home residents will be determined by the facility based on each resident's ability to pay and giving due consideration to requirements of third party payers.
