EDUCATOR LICENSURE

17. Approval to begin the Administrative Procedures Act Process: To Amend the Licensure Guideline for Child Development PreK-K as Recommended by the Commission on Teacher and Administrator Education, Certification and Licensure

Specifications:

On January 8, 2010, the Certification Commission approved an addition to the current guideline that will allow a teacher that is already fully certified in Elementary Education K-3, K-4 or K-6 to add on the PreK-K certification by completing an approved program of coursework that would include a minimum of 9-12 hours in Early Childhood. Before any programs can be approved, the board must amend the guideline to certify not just a degree in Child Development but a supplemental endorsement in this area for those already licensed in Elementary Education.

Background Information:

Currently, our approved licensure guideline for the 153 license in Child Development for PreK-K only allows certification for those that have completed a degree in Early Childhood Education or Child Development from one of the five approved programs in Mississippi. These approved programs are Alcorn State University, Delta State University, Jackson State University, Mississippi State University and the University of Southern Mississippi. In current guidelines, the only way someone could teach preschool children in our schools is to complete a degree from one of these schools. An Elementary certified teacher could not become licensed for PreK-K without completing another degree.

The board is being asked to approve the recommendation from the Certification Commission to amend the guideline for Child Development to include a supplemental endorsement clause.
