

MISSISSIPPI BOARD OF ANIMAL HEALTH

ENTRY REQUIREMENTS

Subpart 2
Chapter 12

106.02 Tuberculosis. All cattle will be required to be negative to a tuberculosis test within 30 days prior to date of shipment, and in addition the cattle must be from a non-quarantined herd in a modified accredited area or tuberculosis-free area. All dairy cattle over 6 months of age must have a negative TB Test prior to entering Mississippi.

Exceptions:

1. If cattle entering Mississippi are on a show circuit, a 60-day test is allowed.
2. Cattle originating from an Accredited Tuberculosis Free Herd (Accredited herd number and date accredited shall be entered on health certificate) or Beef Cattle from an Accredited Free State.
3. Steers.
4. Cattle for immediate slaughter.
5. Dairy cattle direct from a farm in Louisiana, Alabama and Tennessee.

106.03 Trichomoniasis.

1. No bull that has tested positive for Trichomoniasis shall be brought into this state for any purpose whatsoever except to go directly to slaughter and must be on a 1-27 form.
2. No bull may be brought into this state without being accompanied by a negative test for Trichomoniasis except for the following animals:
 - a. Exhibition and rodeo bulls that are temporarily in the state only for the purpose of the event and will be leaving the state after the event;
 - b. Bulls consigned to go directly to slaughter;
 - c. Virgin bulls with accompanying statement.
3. A bull that is brought into this state without being accompanied by a negative test for Trichomoniasis shall not be commingled with any cow unless the bull is tested and found to be negative for Trichomoniasis prior to commingling.
4. All bulls tested for Trichomoniasis, whether in-state or to be brought into this state, shall be identified by one or more of the following means prior to importation:
 - a. U.S.D.A. official permanent ID to include but not limited to:
 - (1) Brucellosis ear tag;
 - (2) official 840 radio frequency identification device (RFID);
 - (3) official 840 flap or bangle tag;
 - (4) official individual animal breed registry brand;
 - (5) official individual animal breed registry tattoo; or
 - (6) official state of origin Trichomoniasis tag.
5. Virgin bulls. A virgin bull is a bull less than 24 months of age in which both permanent central incisor teeth in wear are not present and that has never been commingled with breeding females. Virgin bulls, other than exhibition and rodeo bulls, brought into this state shall, in addition to any other required documentation,

be accompanied by a certification of virgin status signed by the owner of the bull, or the owner's representative or a duly authorized veterinarian. The certification shall include the bull's individual identification. If the owner seeking to import the virgin bull into this state acquired the bull from a breeder or another owner then a certification of virgin status signed by the breeder and each prior owner of the bull, or their representative must also accompany the bull. (See Trichomoniasis Regulation for full instructions.) (Amended 2010.)
