Section 73-13-41, and shall not be construed to prevent or affect the right of any person to provide testimony concerning any such practice, work or service. By way of example, and not of limitation, a person, who provides work or service “under the responsibility, checking and supervision” of a licensee, may, without the limited license required by Section 1, testify fully in any judicial or administrative proceeding in this state concerning such work or services, including his or her opinions, other findings, and the grounds therefore relating to such work or services, including expert testimony in the field of engineering to the extent permitted or required by the court or agency within whose jurisdiction the testimony is provided, and/or the judicial or administrative processes pertaining thereto.

3. Nothing contained in this rule or in the Board’s administration thereof may unreasonably burden any state or federal court or any administrative agency in the administration of rules governing the permissibility of, and admissibility of, testimony by expert witnesses in the form of an opinion or otherwise.
