

BOARD OF ANIMAL HEALTH

Subpart 2
Chapter 12
Section 115

Llamas

Llama - is defined as the generic term for three of the South American camelids - (llama, alpaca, guanaco)

1. General Requirements for Certificate of Veterinary Inspection.
2. Entry Permit required.
3. In addition, individual identification is required. Individual identification includes age, sex, color, registry name and number, and permanent identification.(USDA ear tag, tattoo or microchip) of each animal being transported. If microchip is used, a reader must be supplied by the owner. A color photograph with a notarized letter verifying that the animal in the photograph is the animal represented on the Certificate of Veterinary Inspection will be accepted as a form of individual identification.

Amended: _____, 2011
