

PROPOSED

Rule 3.3 Deadline to Submit Applications - All applications that require examinations which are not computer-based shall be filed with the Board by December 15 for the April examination and by June 15 for the October examination. Applications received after these dates will be processed for the next scheduled examination.

Furthermore, to allow sufficient time for Board review, all required documentation for these applications must be received by January 15 to be considered for an April examination citation and by July 15 to be considered for an October examination citation. Applications that are not fully documented by these dates will be considered for later examinations.

When the Fundamentals of Engineering examination and the Fundamentals of Surveying examination convert to computer-based examinations, the deadlines above will not apply to Engineer Intern applications or to Surveyor Intern applications. These applications will be accepted, processed, and presented for Board approval on a continuous basis. Following notice that the application appears to be complete, FE and FS exam applicants should allow 90 days to receive notification of Board decisions on their applications.
