

FINAL

Rule 11.3 Classification of Engineering Examinations

1. **Fundamentals of Engineering** - This is known as the FE examination. An applicant for enrollment as an Engineer Intern will be permitted to sit for the FE examination only after the Board has established that all requirements of the Law and Rules and Regulations have been met.
2. **Principles and Practice of Engineering** - This examination is known as the PPE examination and is offered by discipline. It is an eight (8) hour examination. The Structural discipline, which is also offered, is a sixteen (16) hour (two eight (8) hour components) examination. An applicant for licensure as a Professional Engineer will be permitted to sit for the PPE examination only after the FE examination has been passed, enrollment has been accomplished and the experience requirements and other requirements of the Law and Rules and Regulations have been met.
