MEVI

The Mississippi Constitution shall be amended in Article 12 to add Section 244 (B):

Before every election, there shall be no fewer than ten (10) days of early voting, including no fewer than two (2) Saturdays, 8:00 AM - 5:00 PM, at the responsible Clerk's Office and qualifying early voting locations. There shall be no early voting the day before the election. The responsible County Circuit Clerk or Municipal Clerk for every election shall provide additional early voting locations based on the number of registered voters: one additional early voting location is required for each increment of thirty thousand (30,000) registered County Voters or ten thousand (10,000) registered Municipal Voters according to the latest federal decennial census. Early voting ballots shall be saved using a system that allows ballots to be recounted for election certification and audit. Early voting ballots shall be added to election day ballots and announced as one result. Within sixty (60) days of passage, the Secretary of State shall promulgate rules and regulations necessary to effectuate early voting, including measures to inform the public about the availability of early voting.
