

Proposed Addition to Redistricting Section of Mississippi Constitution
(Section 254)

Each apportionment under this section shall be made in accordance with the following:

- (a) Each district shall be a single member district;
- (b) The population of each senatorial district shall be substantially the same as other senatorial districts, and each representative district shall be substantially the same as other representative districts;
- (c) Each county shall be divided to the minimum extent practicable in the creation of districts;
- (d) Where the population of a county is not sufficient to comprise a district, the whole of such county shall be included in one (1) district to the extent practicable; and
- (e) Each municipality shall be divided to the minimum extent practicable in the creation of districts.

No additional revenue would be required to implement this initiative.
